

AMMONIA

DESCRIPTION

This is an industrial strength, water soluble, multi-purpose cleaner that incorporates advanced concepts in chemical soil removal. It will effectively remove a wide variety of soils common to industrial, institutional, household, and commercial facilities. This product can be used to remove dirt and oily soils and stains from all types of hard surfaces such as floors, countertops, fixtures, bath areas, glass, and many other hard surfaces not harmed by water. This product can be used as a deodorant, sweetener, and water softener as well as a superior cleaner. Care should be taken not to mix this product with chlorine type bleaches or other household or industrial chemicals. Vapors and over exposure to this chemical should be avoided at all times.

INSTRUCTIONS

For general applications use 1 to 2 ounces per gallon of water. Spray, wipe, or mop on to clean hard surfaces. Rinse if desired.

FEATURES

- V Nonflammable
- V Cleans variety of surfaces
- V Biodegradable
- V Works well in all types of applications
- V Cleans and deodorizes
- V Used as a water softener

SPECIFICATIONS

Appearance:	Clear Liquid	pH:	10+
