

Lemon Essex

Liquid Self-Foaming Alkaline Cleaner

DESCRIPTION

This product is a concentrated “self-foaming” heavy-duty alkaline cleaner and degreaser. Effective on the most stubborn soils found in food plants. This product handles grease and grime quickly while assuring the removal of buildup not otherwise cleaned by normal cleaning procedures. This is very effective in removal of fats, grease, carbonized soils and proteins. Provides excellent soil removal in meat plants, bakeries, poultry and other food industries, excellent for CIP cleaning procedures.

INSTRUCTIONS

Use Lemon Essex in foam dispensing equipment, pressure washing and soak tank in concentrations from 1:20 to 1:40 (one part product to 20-40 parts water)

FEATURES

- Heavy Duty
- Works well in hard or soft water
