

Magnum

DESCRIPTION

Magnum is a mildly acidic, perfected formula used to effectively and safely clean automotive wheels made of chrome, aluminum ally, and other polished metals. This product works quickly to remove tough grease, brake dust, road film, tar & asphalt, bugs and other problem accumulations due to neglect. This mild phosphoric acid formulation quickly brightens wheels and restores them to their original factory finish.

INSTRUCTIONS

This product is designed for use as is in a tunnel car wash through automatic injectors, or through a trigger or pump-up type sprayer in detail shops and cleaning shops.

FEATURES

- ❖ Safe Acidic Formulation
- ❖ Removes films and deposits instantaneously
- ❖ Brightens as it cleans
- ❖ Versatile in use
- ❖ Will not harm vehicle finish or tires
- ❖ No Scrub applications
