

AMMONIATED CLEANER

DESCRIPTION

This uniquely formulated, fast acting industrial cleaning compound was developed to penetrate and dissolve dirt, oil, grease, grime, and old floor finishes from many surfaces with great ease. Ammoniated Cleaner is highly concentrated and is fortified with ammonia for effective cleaning and easy applications. This product is a complex blend of surfactants, wetting agents, emulsifiers, and ammonia that offers the maximum cleaning power needed for general cleaning of industrial hard surfaces and stripping floor. Ammoniated Cleaner contains no acids or harsh abrasives that will scratch or damage cleaned surfaces. This product is also excellent for cleaning appliances, fixtures, chrome, stainless steel, and aluminum in diluted form. Ammoniated Cleaner is non-toxic and non-corrosive and completely biodegradable and phosphate free, making it only one of our many environmentally friendly products.

INSTRUCTIONS

Painted walls and woodwork: Mix 2 to 4 ounces to a gallon of water and clean surfaces with this solution. On vertical surfaces, always start at the bottom and work your way up to the top. Glass and Mirrors: Mix one ounce to a gallon of water. Spray on and polish dry. Wash Basins, Bathtubs, and Toilet Bowls: Mix 2 to 4 ounces per gallon of water and scrub surfaces with solution; rinse when finished. Tile, Vinyl, and Other Hard Flooring: Mix 2 to 4 ounces per gallon of water and scrub surfaces with solution; rinse when finished. Plastic Booths and Furniture: Mix 2 to 4 ounces per gallon of water and scrub surfaces with solution; rinse when finished. Kitchen Stoves and Other Appliances: Mix 6 to 8 ounces per gallon of water and allow soaking; rinse when finished. To strip floors, dilute 3:1 and rinse when finished.

FEATURES

- V Ammoniated all purpose cleaner
- V Biodegradable
- V Fortified with ammonia
- V Phosphate free
- V Safe for most hard surfaces
- V Economical - highly concentrated
- V Dissolves dirt, oil, and finishes quickly

SPECIFICATIONS

Appearance:	Tan Liquid	pH:	11-13
Odor:	Ammonia	Biodegradable:	Yes
Specific gravity:	>1.00	Detergency:	Excel
