

Bone Dry

Low Moisture Encapsulating Carpet Cleaner

DESCRIPTION

Bone Dry is a highly effective low moisture cleaner for carpets and rugs including 5th generation nylon. This product is highly effective in hot or cold water and contains emulsifiers that break down dirt, grease, oil, and food residue and “wicked back” stains. Bone Dry contains special polymers that engulf and encapsulate dirt, detergent residue and other soils then dries to a brittle non-sticky crystals. The crystal and entrapped soils are easily removed by routine vacuuming.

INSTRUCTIONS

For cleaning dilute one part Bone Dry with 10 parts of water. Cleaning solution may be applied with a pump up sprayer or traditional shampoo shower feed. Agitate the carpet using a low speed floor machine with shampoo brush or a white rubberized floor buffing pad or any other comparable rotating brush (Pay attention to carpet manufacturers general cleaning guidelines to retain carpet quality and any warranty in effect). Carpet will normally dry within 30 minutes. Wait at least overnight before vacuuming allowing adequate time for the polymers to fully cure and harden. Bone Dry may also be used as a spotter when diluted 1:5 with water.

FEATURES

- Dries to a crystalline solid
- Quickly breaks down stubborn dirt, grease, and oil
- Low Moisture, carpets are back in service quickly
- Prevents fiber resoiling from sticky residues
- Prevents “wick back” of spots
- Safe on 5th generation carpets

SPECIFICATIONS

Appearance:	Clear Liquid	Flammable:	No
Odor:	Slight ammonia	Detergency:	Excellent
Specific gravity: 1.01			
pH 10% Solution:	8.8 - 9.3		

SAFETY

Keep out of the reach of children! This product is 100% biodegradable and contains no phosphates. Take care not to get in eyes. Consult material safety data sheet for medical procedures for instructions on incidents to skin and eyes and for preventive measures.
