

BUR-CO-CIDE 10

DESCRIPTION

This product is a concentrated, phosphate free, germicidal cleaner, intended for cleaning and disinfecting. It is designed for cleaning floors, walls, bed frames, furniture, and bathroom fixtures. It is free rinsing and leaves no film. Therefore, it is recommended for the cleaning of conductive flooring in operating rooms.

INSTRUCTIONS

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Used at 1 ounce per gallon of water (1:28), this product will provide 840-ppm phenols to this suggested use solution. Apply liquid with a mop, sponge, cloth, or bowl mop to thoroughly wet the surfaces. To assure product effectiveness, allow this product to remain wet for 10 minutes and then air dry. This will provide disinfection against the following pathogenic organisms when used on hard nonporous inanimate surfaces: mycobacterium tuberculosis (BOVIS), pseudomonas aeruginosa, salmonella, chloeraesuis, and staphylococcus auras. In the case of mycobacterium tuberculosis, this product was tested according to the AOAC use dilution method (the official method of analysis 14th edition 1984 chapter 4: disinfectants 4.001 - 4.041 and 4.039-4.041). Note: In areas of gross filth or heavy soil it is necessary to thoroughly clean surfaces prior to application of this product.

FEATURES

- Highly concentrated - dilutes 1 to 128
- Dries film free
- Controls mycobacterium tuberculosis (bovis)
- No strong perfume odor

SPECIFICATIONS

Appearance:	Brown Liquid	pH Concentrate:	13+
Odor:	Bland	Flammable:	No
Specific gravity:	1.02 - 1.04	Detergency:	Excellent
pH 1% Solution:	11+		

SAFETY

Hazardous to humans and domestic animals. Keep this and all chemicals out of the reach of children. Corrosive: Causes eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food. Storage and Disposal: Do not contaminate water, food, or feed by storage disposal.
