

CONTROL PRESPRAY

DESCRIPTION

Control Prespray is designed to be used in conjunction with the **Control Dry Cleaning** system in problem areas that resist cleaning. This product acts quickly to emulsify areas of heavy grime, dirt, grease, and oil that may be ground into carpets or rugs, especially in traffic lanes. This prespray may also be used as a spot remover when larger area cleaning is not needed.

INSTRUCTIONS

Control Dry Cleaning Compound's cleaning power will be improved when Control Prespray is applied prior to the cleaning compound. Control Prespray is ready-to-use and should be used in a mister, employing a trigger sprayer. Lightly mist stained areas and then apply Control normally. If any stains persist, spray stained area, brush with a hand brush and then blot with a clean towel.

FEATURES

- May be used alone as a spotter
- When used with Control, it increases performance
- May be used on fabric or upholstery
- Ready-to-use
- Biodegradable

SPECIFICATIONS

Appearance: Clear Liquid
