

DELUXE

DESCRIPTION

A pleasant odorless organic **laundry detergent** powder, which is designed to be equally effective in hot or warm water. This economy built detergent is formulated for the toughest, most troublesome laundry problems where price is of major concern and is not recommended for fine or delicate fabrics. This product is biodegradable, contains optical brighteners and fast acting cleaning agents, and is effective on natural and synthetic fibers. Highly concentrated for use in hotels, motels, schools, hospitals and nursing homes. It also provides a thorough cleaning combination, preventing the redeposition of particulates, which causes discoloration and a break down in the strength of fabrics. Cleaning is provided through the use of modified detergents rather than strong alkaline booster compounds. This product rinses freely and completely.

INSTRUCTIONS

For general laundry usage (top load machines), use approximately 3 ounces per load. For larger loading machines or heavier soiled loads, use 4 ounces per load. Automatic dispensing units are most widely used today for simplicity. They are programmed to deliver exactly the amount needed for different sized loads and soil levels. In most cases, the average 30-pound commercial machine will require 4 to 8 ounces per load. Always follow garment manufacturers general washing instructions to retain quality of garment. This modern, controlled suds formula is designed to act quickly to break down stubborn dirt, grease, and oils.

FEATURES

- V Biodegradable
- V Versatile use in most systems
- V Biodegradable
- V Works well in hard or soft water

SPECIFICATIONS

Appearance:	White Powder	Specific Gravity:	N/A
