

FLASH

DESCRIPTION

This is a high sudsing product that has been uniquely formulated for hand washing cars, trucks, buses, and other vehicles. Flash is a modern combination of synthetic detergents and emulsifiers, which provides effective cleaning to all vehicle surfaces. This product will quickly remove dirt and greasy soils for surfaces without damaging or dulling any finishes. This superior automobile wash has a neutral pH and contains no acids, abrasives, or strong alkalis that might cause damage and will not contaminate streams, water supplies, or septic tanks after rinsing. Flash is highly concentrated for economical use and works well in automatic car washing systems. This product will safely and completely perform all vehicle-cleaning jobs.

INSTRUCTIONS

This product is highly concentrated and can be diluted as high as 1 ounce per gallon of water depending of severity of soiling of automobile surfaces. To clean greasy buildups, use 6 to 8 ounces of product per gallon of water. Interior cleaning of cars, trucks, or buses is effortless at 2 to 3 ounces per gallon of hot or cold water. Consult your sales representative of use in automatic systems.
