

Flush Out

DESCRIPTION

Flush Out is a mildly acidic pretreatment designed to neutralize, dissolve and liquefy urine salts and heavy urine deposits for easier removal.

MIXING INSTRUCTIONS

Mix 1 part of Flush Out with 3 parts of water for routine urine removal jobs. For extremely heavy deposits use full strength.

DIRECTIONS

Liberaly apply solution to contaminated area and allow to dwell for 5-10 minutes. Detergent clean thoroughly, rinse with fresh water. After cleaning and rinsing, liberaly apply flush out to the affected area to digest any residual material.

FEATURES

- Dissolves urine salts for fast removal
