

REPEL

DESCRIPTION

Repel has been especially designed to protect finishes and to keep carpet dyes from adhering to hard surfaces due to splatters by passes made in the carpet dying process. Carpet dyes and colors will wipe off completely when surfaces have been treated with Repel. Repel is non-staining to all hard surfaces, painted or unpainted.

INSTRUCTIONS

Repel is ready to use. Use in a trigger sprayer and apply directly to surface to be protected.

FEATURES

- Conveniently Ready to Use
- Safe on all hard surfaces, carpets, and fabrics
- Provides maximum protection
- 100% biodegradable
