SHOWDOWN

READY TO USE

DESCRIPTION

A multipurpose, non-selective weed killer that KILLS THE COMPLETE WEED from the top of the weed to the root, but DOES NOT STERILIZE THE SOIL.

INSTRUCTIONS

Ready to use. 1 to 2 gallons will normally cover 1000 square feet of turf to control plant growth around buildings, signs, utility poles, gardens, walk-ways, patios, beneath benches, along fence lines, golf courses, driveways, ditches and other non-crop areas.

FEATURES

Show Down is a non-selective grass and weed killer which, when absorbed systematically by contacted foliage, is carried throughout the stems and roots to give complete kill of tough annual and perennial grasses and broadleaf plants - roots and all. Because it does not have residual effect on the soil, it will not injure desirable plants as long as the spray does not come into contact with said plant.

There is hardly a grass, weed or brush plant that is too tough to kill. For example: Chickweed, Ragweed, Crabgrass, etc., etc. YOU CAN'T MISS WITH SHOW DOWN, the environmental herbicide of the 90's!

SPECIFICATIONS

Appearance:	Clear to Amber Liquid	Specific gravity:	1.01
Odor:	Mild	EPA Registration:	Yes

SAFETY

Keep out of the reach of children! While this product is safe for most washable surfaces including clothing, care should be taken not to splash this product into eyes. If so, rinse with warm water for 15 minutes.
